## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims do not require any physical transformation and the invention as claimed does not produce a useful, concrete, and tangible result. In order to overcome such a deficiency, it is suggested that claim 1 be amended to include a tangible result, such as outputting the label or bump function to a monitor or other display means.

### ***Response to Arguments***

2. Applicant's arguments, see paragraphs 2 and 3 of page 7, filed 10 January 2007, with respect to the specification have been fully considered and are persuasive. The objection to the specification has been withdrawn.
3. Applicant's arguments, see paragraph 5 of page 7, filed 10 January 2007, with respect to the rejection of claims 1-20 under 35 U.S.C. §102(b) as being anticipated by Sun'881 have been fully considered and are persuasive. The §102(b) rejection of claims 1-20 has been withdrawn.
